**NOTE:** You will still have up to 10 days of rental reimbursement benefits under your coverage if you elect not to add the Drop Off First Day Rental feature, but it will only become effective if your vehicle has to be kept overnight to complete a covered repair or if your vehicle is determined to be inoperable at the time it is left for service or if further driving would cause damage or render it inoperable and so it must be kept overnight.

**First-Day Rental** provides a rental vehicle up to \$30 per day (up to \$45 for Lincoln vehicles) on the FIRST DAY the vehicle is dropped off for an ESP or warranty covered repair.
