

2009+ Tire and Wheel Fitment Guide

\*Disclaimer, This spreadsheet is a guide created from the posts in this thread, caution should be used.

If tire measurement is given in inches in the post I'll convert to Metric with DML Tire & Wheel Calculator

For Backspace/Offset Calculations I used a Calculator found at www.mrw-wheels.com

I'm trying to only include full information, I don't really want to speculate when someone didn't post enough info

**Stock Height 2wd**
