

2009+ Tire and Wheel Fitment Guide												
*Disclaimer, This spreadsheet is a guide created from the posts in the Tire and Wheel Fitment thread, caution should be used.												
If tire measurement is given in inches in the post I'll convert to Metric with DML Tire & Wheel Calculator												
For Backspace/Offset Calculations I used a Calculator found at www.mrw-wheels.com												
I'm trying to only include full information, I don't really want to speculate when someone didn't post enough info
